ADVICS CO., LTD.

A luxury car brand will use high performance calipers from ADVICS for their new model

ADVICS (HQ in Aichi Pref., Kariya City, President Tetsuya Otake) will supply the newly developed high performance caliper for the Mercedes-AMG SL.

ADVICS is supplying more efficient aluminum 6 piston calipers.

The demand for this product will be increase in the future for a wide range of cars as the weight of cars increases with electrification.

As a leading supplier for brake systems, ADVICS will continue to develop new technologies that meet the needs of the next automotive generation.
